# OUR ORGANIZATIONAL STRUCTURE

## OUR MANAGEMENT

The business is driven by our four working directors and partners with more than 40 years of accumulated working experience in engineering, real estate and construction industry. They are actively involved in the business development, procurement, project management and administration of the company.

The management team proactively gathers feedback, identifies changes in business environment, reviews work processes, and communicates key learning points and company policy to all staff at regular meetings.

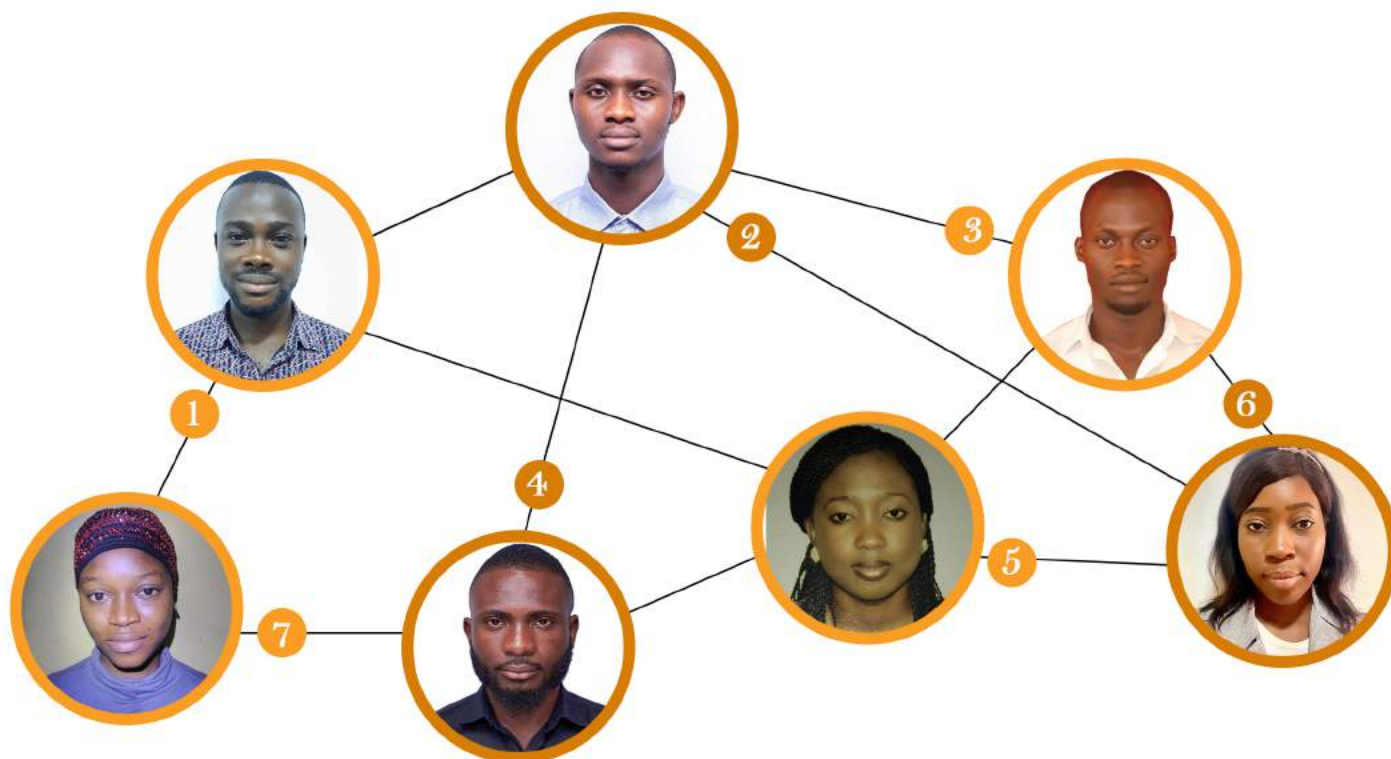

## OUR TEAM

Our people are crucial in the delivery of our services and solutions to our clients. In order to ensure that everyone is equipped with the right skill, knowledge and attitude, a comprehensive training program is put in place to constantly upgrade our people in technical and management skills.

We believe firmly in providing the right training, accredited certification and practical knowledge for our people, in order for them to execute their duties and responsibilities confidently. Our aim is to stay relevant to the ever-changing market place and clients' requirements.
